The Far Cry 3 Engine Shaders 1, 2, 3 - FarCry3EngineShaders As I pointed before, I am stumped... At the moment it is just "realistic shadows" but if anyone here has some bright ideas I would appreciate them. A: 1. update to latest version of the game 2. remove all other files(DLLs) in the game's folder, to be safe 3. extract

d3dx10.dll from the original game files and copy it to the game's folder. 4. look for the basic model file(.mdl) in the game's folder and copy it to the game's folder I have not found any alternate files in d3dx10 folder except.mesh. 5. close reShade 6. run the game 7. close game 8. open ReShade and re-select the main texture file(.dds) 9. load the game Slovenia's Sanader resigns after wiretap scandal Published

He is accused of taking EU funding meant to cover the reconstruction of war damage. Slovenia had been considering a judicial reform package but the plans are in jeopardy now the prime minister has resigned. Tudjman, 63, faces several charges of attempted fraud

relating to EU funds. He denies the accusations. 'Difficult decisions' Tudjman's resignation has the backing of the Slovenian opposition, with their parties forming a governing coalition. "To the citizens I say: do not be mistaken and do not make it into a farce," the resigned prime minister said. He said he would face a trial in June. He has been under investigation for a year and a half,

and Slovenian media have reported that his wife is being investigated for tax fraud. The scandal was thought to have taken months 3da54e8ca3
