Mount the POINT I/O Adapter on a DIN Rail

1. Make sure the DIN rail locking screw (orange) is in horizontal position.
2. Position the adapter vertically above an IEC standard (35 x 7.5 x 1 mm) top-hat DIN rail at a slight angle (DIN rail: Allen-Bradley part number 199-DR1; 46277-3).
3. Press down firmly to install the adapter on the DIN rail, noting that the locking mechanism locks the adapter to the DIN rail.

ATTENTION: Allow 25.4 mm (1.0 in.) of space between adjacent equipment for adequate ventilation.

4. Set the network address thumbwheel switches to the desired value. See [Set the Network Address](#) in chapter 3 for details on setting the IP address.
5. Slide the safety end cap up to remove it, exposing the backplane and power interconnections.

A = DIN rail
B = Secure DIN rail approximately every 200 mm (7.8 in.)

4074

WARNING: If you connect or disconnect the communications cable with power applied to this module or any device on the network, an electrical arc can occur. This could cause an explosion in hazardous location installations.

Be sure that power is removed or the area is nonhazardous before proceeding.

ATTENTION: Do not remove or replace an Adapter Module while power is applied. Interruption of the backplane can result in unintentional operation or machine motion.
