

[Uninstall Gfi Endpoint Security Agent Service](#)

The screenshot shows the Symantec Endpoint Protection Manager web interface. The top navigation bar includes the Symantec logo, the product name, and links for Latest News, Refresh, Help, and Log Off. The left sidebar contains navigation options: Home, Monitors, Reports, Policies (highlighted), Clients, and Admin. Under Policies, there are sub-options for Virus and Spyware Protection, Firewall (selected), Intrusion Prevention, Application and Device Control, Host Integrity, LiveUpdate, Exceptions, and Policy Components. Under Admin, there are tasks: Add a Firewall policy, Import a Firewall policy, and Search for Applications. The main content area displays 'Firewall Policies' with a table listing two policies: 'Firewall policy' (2 locations) and 'Quarantine Firewall policy' (0 locations). Below the table, a section titled 'Recent changes appear below:' shows a log of actions performed by 'admin' on January 11, 2017, at 12:16:34 PM EET, including adding shared policies upon system installation.

Name	Description	Location Use Count
